Top 10 Reasons To Use SBLMS

1 Ease of Use:

SBLMS, as well as our training programs are designed for ease of use, even by those with limited computer skills. SBLMS administration and management are simple and uncomplicated yet feature-rich and very powerful.

6 Documentation:

All training sessions are fully documented to insure secure tracking of users by the company administrator and department managers. Test scores and other pertinent information are available by simply clicking a button. No need for paper files or additional backup software. We provide the ultimate in security of your data and make it accessible at any time you may need it.

2 What is provided:

We essentially provide everything: Powerful LMS, 70 course library, IBM Web server, Web server software, daily data backups, redundant UPS's, server maintenance, server support 24/7, Sonet Ring technology with an OC-48 ring and multiple DS-3 fiber optic lines.

7 No costly, time-consuming user training is needed:

User training is very simple and quick. Each user will need to read a one-page instruction sheet, read the data on their particular SBLMS user page, and view a user-specific 5-10 minute "User Tour". SBLMS has been designed with the user in mind, making it easy to use as well as manage. The site is simple to navigate and the online help system is extremely easy to use. The online help system contains a thorough description of every function that is available to each user.

3 Cost:

The cost of the SBLMS training solution cannot be matched by any other company. We offer use of the entire SBLMS site, with unlimited access for a single annual fee that makes it easy to budget. The more you use it the less it costs per person. Our low-cost, high-quality training program makes SBLMS an incredible value.

8 Administration Flexibility:

SBLMS department managers have total control over user accounts, course titles, exam content, certificate programs, curriculum assignment, certification enrollment, delinquent training notifications, outside contractor accounts, and powerful online reporting.

4 Focus On the Employee:

Our training programs are focused on information that will assist the employee in understanding hazards and reducing the risk of injury. Detail on each subject is presented in a way that is understandable yet extremely informative. This is an employee-based safety training solution.

9 Use your existing training courses:

You may use your existing training courses that have been authored with PowerPoint *, Flash, Director, or HTML. (There is a \$100 upload fee for each course.)

SBLMS will convert any training course to a web format or author any new training courses for you.

Our service is fast and affordable.

** PowerPoint is required to view PowerPoint files.*

5 Unlimited Access:

Training is accessible from different work locations or even at home, twenty-four hours a day, seven days a week. All that is needed is an Internet connection anywhere at anytime. This improves training efficiency and helps to avoid costly classroom training that may unnecessarily take personnel away from production or maintenance activities.

10 70 Course SBLMS Library:

SBLMS training courses have been written by professionals. The content of each program is relevant to applicable regulations and potential hazards faced by work tasks being performed in the industrial environment. Add any or all of these courses to your department's curriculum by simply clicking a button. Enrollment is just as easy.
